- Flags first appeared on battlefields to help advancing armies identify friend and foe
- Flags identifying the nationality of ships led to today's national flags
- Armies post colors to stake out turf in war
- Neil Armstrong – an Eagle Scout, and the first man to walk on the moon – posted the United States flag on the moon
- Respect above all else!**
- It's Own Right**—If I were the flag, where is my right?

**Plan, Size, Practice**  
 Don't forget the **power of the Sign**  
 Get your Scout's examples!

Hoist briskly, lower slowly  
 Hoist first, lower last
